## Investment Objective

The fund seeks to achieve growth of your investment by investing mainly in shares (equity) and similar securities issued by high quality companies listed on the stock exchanges of countries within the Organisation for Economic Cooperation and Development (OECD) and, in particular, the U.S. and North American OECD countries.

## Commentary

Cadence was the best performer, up +17.07%. The company delivered strong Q1 results with 23% revenue growth and notable margin expansion, leading to a raised 2025 revenue guide. Booking was the second-best, up +10.69%. The company reported solid Q1 results with its cost management program helping the group deliver operating profits ahead of consensus. UnitedHealth was the worst performer, down -21.44%. Q1 results were broadly in line with expectations but the 2025 earnings outlook was lowered by -12% on increased care activity in their Medicare Advantage (MA) businesses which the company attributed to MA funding reductions. Nike, which was sold during the month, was the second-worst, down -12.16% for the period held. The 2nd of April tariff announcement expanded tariffs to all Nike's production countries, which the market saw as a material negative profit headwind.
