## Investment Objective

The fund seeks to achieve growth of your investment by investing mainly in shares (equity) and similar securities issued by high quality companies listed on the stock exchanges of European countries within the Organisation for Economic Co-operation and Development (OECD).

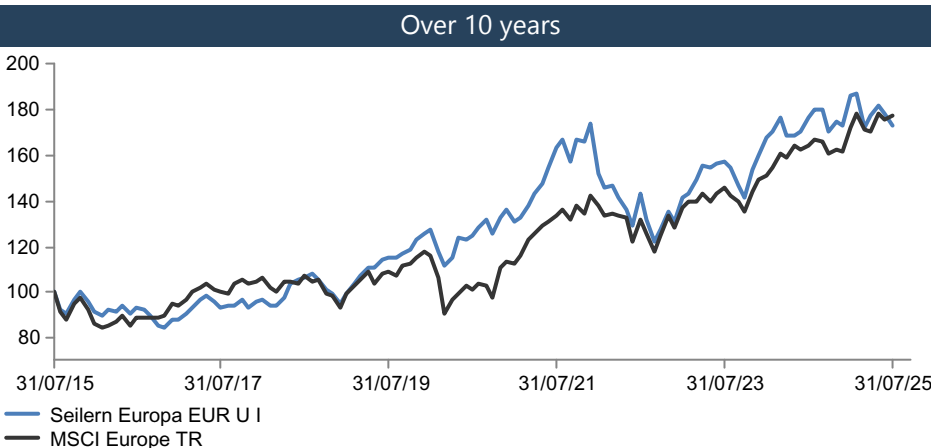

## Commentary

Belimo was the best performer, up +18.01%, after H1 earnings beat consensus expectations by 15%, driven by strong revenue growth and a mix shift to higher-margin data centre demand. EssilorLuxottica was the second best, up +11.89%. Solid H1 results, well-aligned with expectations, and commentary around moving beyond traditional eyewear supported the stock. Novo Nordisk was the worst performer, down -28.46%, after it cut its full-year guidance for the second time this year citing persistent compounding activity in the US, competition and slower market penetration. Lindt was the second worst, down -10.26%. Despite beating H1 revenue expectations and raising its sales forecast, shares fell as the company missed on operating margins and guided its full-year margin outlook to the lower end of its guidance range.
