Objective

The fund seeks to achieve growth of your investment by investing mainly in shares (equity) and similar securities issued by high quality companies listed on the stock exchanges of European countries within the Organisation for Economic Co-operation and Development (OECD).

Commentary

RATIONAL was the best performer this month, up +19.1%. The company hosted a Capital Markets Day at the end of November, though the fall in bond yields likely had a greater impact on the share price than the event. Spirax-Sarco was the second-best performer, up +13.6%. The stock bounced alongside the fall in bond yields and after poor performance in October. Lindt was the worst performer this month, down -6.7%. While there was no company-specific news, cocoa futures prices reached an all-time high as extreme weather continues to affect crops in West Africa. SAP was the second-worst performer, down -4.1%. While there was no company-specific news, concerns about the broader IT spending space weighed on the sector.

Investments in the Fund are subject to certain risks and the value of an investment can go down as well as up and investors may not get back their original amount invested. The performance calculation is based on EUR. If the currency in which the past performance is displayed, and/or the currency in which fees and charges are paid by the Fund, differs from the currency of the country in which you reside, then you should be aware that due to exchange rate fluctuations the performance shown may increase or decrease if converted into your local currency.
