Investment Objective

The fund seeks to achieve growth of your investment by investing mainly in shares (equity) and similar securities issued by high quality companies listed on the stock exchanges of countries within the Organisation for Economic Cooperation and Development (OECD) and, in particular, the U.S. and Western European OECD countries.

Commentary

Microsoft was the best performer, up +8.05%, lifted by growing investor confidence in its AI strategy and cloud potential alongside several broker upgrades. Cadence was the second best, up +7.34%. The stock rose after reports that Electronic Design Automation (EDA) access was being restored to some Chinese firms, easing prior trade restrictions. Dassault was the worst performer, down -6.88%. At its Capital Markets Day in June, the company delayed its long-term financial plan by a year and failed to convince investors on their path to achieve their new targets. Adobe was second worst, down -6.80%. Strong Q2 results and raised guidance were not enough to dispel ongoing fears of long-term disruption from AI.
