Investment Objective

The fund seeks to achieve growth of your investment by investing mainly in shares (equity) and similar securities issued by high quality companies listed on the stock exchanges of countries within the Organisation for Economic Cooperation and Development (OECD) and, in particular, the U.S. and Western European OECD countries.

Commentary

Adobe was the best performer, rising +24.91%. Second quarter results were ahead of consensus and the company raised guidance for the full-year, bucking the trend of other software companies' results and alleviating concerns of competitive threats from AI. SAP was second best, rising +14.20%. While there were no major changes to their strategy at their Capital Markets Day, against a broader backdrop of weakness in the sector the reaffirmation of guidance was well-received. Nike was the worst performer, down -20.70%. The company's quarterly results were overshadowed by a negative guidance revision for Fiscal 2025 that will see the business shrink by mid-single digits. The revision highlighted weakness in China and accelerated stock reductions in developed markets. Edenred was second worst, falling -8.46%. While there was no company-specific news during the month, the French snap election likely increased market uncertainty and dampened investor confidence in companies like Edenred.

Past performance does not predict future returns. Returns for periods over one year are annualised. Investments in the Fund are subject to certain risks and the value of an investment can go down as well as up and investors may not get back their original amount invested. The performance calculation is based on EUR. If the currency in which the past performance is displayed, and/or the currency in which fees and charges are paid by the Fund, differs from the currency of the country in which you reside, then you should be aware that due to exchange rate fluctuations the performance shown may increase or decrease if converted into your local currency. The Fund is actively managed, which means that the investments are selected at the discretion of the investment manager.

SEILERN WORLD GROWTH EUR U R

Principal Risk Factors

The Fund is subject to a range of risks including:**Market Risk:**The Fund is subject to normal market fluctuations and the risks associated with investing in international securities markets.

Investment Risk:The value of investments can fall as well as rise and investors might not get back the sum originally invested.

Political Risk:The Fund invests in markets where economic and regulatory risks can be significant.

No Capital Guarantee:Positive Returns are not guaranteed and no form of capital protection applies.

Currency Risk:The Fund may acquire assets in currencies other than the base currency of the Fund and as a result the value of the Fund's investments may rise and fall due to changes in foreign exchange rates.

Hedging Risk:In respect of hedged (H) share classes, the value of the Fund's investment in derivatives depends primarily on the performance of the underlying asset. A small movement in the value of the underlying asset may cause a large movement in the value of the derivative. There is no guarantee that the Fund's use of hedging to protect against changes in currency exchange rates will be successful.

More information in relation to risks in general may be found in the "Risk Factors" section of the prospectus.
