Investment Objective

The fund seeks to achieve growth of your investment by investing mainly in shares (equity) and similar securities issued by high quality companies listed on the stock exchanges of countries within the Organisation for Economic Cooperation and Development (OECD) and, in particular, the U.S. and Western European OECD countries.

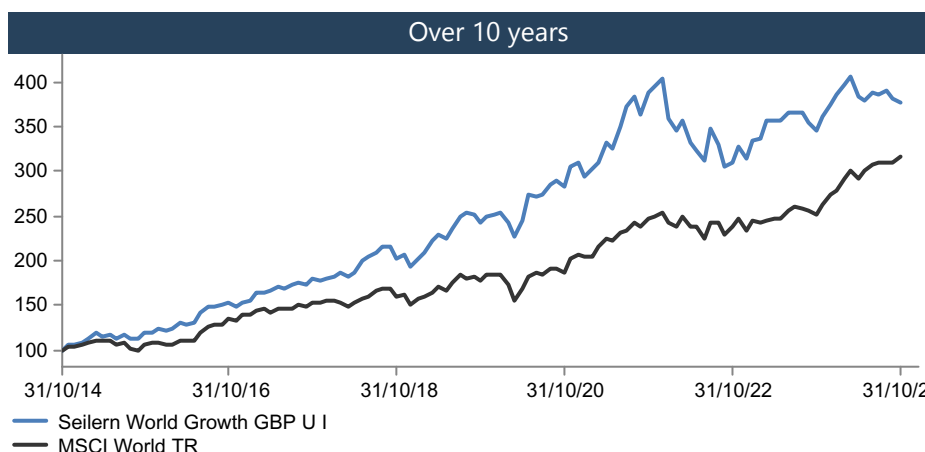

Commentary

SAP was the best performer, up +5.09%. The company reported continued sales momentum in cloud contracts, robust backlog growth and surprised the market positively on profitability. Tyler Technologies was second best, up +3.75%. The company announced a strong third quarter print, with SaaS sales still growing well above 20% and operating margins expanding by more than consensus forecasts. Idexx was the worst performer, falling -19.46%. Although Q3 earnings came in ahead of consensus, the company lowered guidance for the full year, as vet visit growth remains subdued and US hurricanes have further dampened demand. Straumann was second worst, down -17.54%. The group reported strong third quarter sales, ahead of expectations, helped by Europe and Asia Pacific. However, investors are questioning whether softer sales in North America could continue into next year.
